**RECEIVED**

Hello

I have the following comments on the proposed 100 unit, two building condominium project by Pulte Homes.

We recommend the same operations and maintenance plans as the other University Ave NED parcels.

Although not shown on the plan, please confirm that the water main will be ultimately owned by the Water District with appropriate easement. The domestic and fire service pipes must be connected to a Water District owned water main.

We recommend that dogs be prohibited from these condos because of the proximity to the Public Water Supplies.

Thank you

Eileen
