Daniel Merrikin

c. Signed and Stamped by

1" =20'

e. Scale

f. Additional Plan or Document Title

g. Date

B. Findings

1. Findings pursuant to the Massachusetts Wetlands Protection Act:

Following the review of the above-referenced Notice of Intent and based on the information provided in this application and presented at the public hearing, this Commission finds that the areas in which work is proposed is significant to the following interests of the Wetlands Protection Act (the Act). Check all that apply:

- a. Public Water Supply b. Land Containing Shellfish c. Prevention of Pollution
d. Private Water Supply e. Fisheries f. Protection of Wildlife Habitat
g. Groundwater Supply h. Storm Damage Prevention i. Flood Control

2. This Commission hereby finds the project, as proposed, is: (check one of the following boxes)

Approved subject to:

- a. the following conditions which are necessary in accordance with the performance standards set forth in the wetlands regulations. This Commission orders that all work shall be performed in accordance with the Notice of Intent referenced above, the following General Conditions, and any other special conditions attached to this Order. To the extent that the following conditions modify or differ from the plans, specifications, or other proposals submitted with the Notice of Intent, these conditions shall control.

B. Findings (cont.)

Denied because:

- b. the proposed work cannot be conditioned to meet the performance standards set forth in the wetland regulations. Therefore, work on this project may not go forward unless and until a new Notice of Intent is submitted which provides measures which are adequate to protect the interests of the Act, and a final Order of Conditions is issued. **A description of the performance standards which the proposed work cannot meet is attached to this Order.**
- c. the information submitted by the applicant is not sufficient to describe the site, the work, or the effect of the work on the interests identified in the Wetlands Protection Act. Therefore, work on this project may not go forward unless and until a revised Notice of Intent is submitted which provides sufficient information and includes measures which are adequate to protect the Act's interests, and a final Order of Conditions is issued. **A description of the specific information which is lacking and why it is necessary is attached to this Order as per 310 CMR 10.05(6)(c).**
- 3. Buffer Zone Impacts: Shortest distance between limit of project disturbance and the wetland resource area specified in 310 CMR 10.02(1)(a) 51.7 a. linear feet

C. General Conditions Under Massachusetts Wetlands Protection Act

The following conditions are only applicable to Approved projects.

1. Failure to comply with all conditions stated herein, and with all related statutes and other regulatory measures, shall be deemed cause to revoke or modify this Order.
2. The Order does not grant any property rights or any exclusive privileges; it does not authorize any injury to private property or invasion of private rights.
3. This Order does not relieve the permittee or any other person of the necessity of complying with all other applicable federal, state, or local statutes, ordinances, bylaws, or regulations.
4. The work authorized hereunder shall be completed within three years from the date of this Order unless either of the following apply:
 - a. The work is a maintenance dredging project as provided for in the Act; or
 - b. The time for completion has been extended to a specified date more than three years, but less than five years, from the date of issuance. If this Order is intended to be valid for more than three years, the extension date and the special circumstances warranting the extended time period are set forth as a special condition in this Order.
 - c. If the work is for a Test Project, this Order of Conditions shall be valid for no more than one year.
5. This Order may be extended by the issuing authority for one or more periods of up to three years each upon application to the issuing authority at least 30 days prior to the expiration date of the Order. An Order of Conditions for a Test Project may be extended for one additional year only upon written application by the applicant, subject to the provisions of 310 CMR 10.05(11)(f).
6. If this Order constitutes an Amended Order of Conditions, this Amended Order of Conditions does not extend the issuance date of the original Final Order of Conditions and the Order will expire on 2/15/25 unless extended in writing by the Department.
7. Any fill used in connection with this project shall be clean fill. Any fill shall contain no trash, refuse, rubbish, or debris, including but not limited to lumber, bricks, plaster, wire, lath, paper, cardboard, pipe, tires, ashes, refrigerators, motor vehicles, or parts of any of the foregoing.

C. General Conditions Under Massachusetts Wetlands Protection Act

8. This Order is not final until all administrative appeal periods from this Order have elapsed, or if such an appeal has been taken, until all proceedings before the Department have been completed.
9. No work shall be undertaken until the Order has become final and then has been recorded in the Registry of Deeds or the Land Court for the district in which the land is located, within the chain of title of the affected property. In the case of recorded land, the Final Order shall also be noted in the Registry's Grantor Index under the name of the owner of the land upon which the proposed work is to be done. In the case of the registered land, the Final Order shall also be noted on the Land Court Certificate of Title of the owner of the land upon which the proposed work is done. The recording information shall be submitted to the Conservation Commission on the form at the end of this Order, which form must be stamped by the Registry of Deeds, prior to the commencement of work.
10. A sign shall be displayed at the site not less than two square feet or more than three square feet in size bearing the words,

"Massachusetts Department of Environmental Protection" [or, "MassDEP"]
"File Number 338-0730 "
11. Where the Department of Environmental Protection is requested to issue a Superseding Order, the Conservation Commission shall be a party to all agency proceedings and hearings before MassDEP.
12. Upon completion of the work described herein, the applicant shall submit a Request for Certificate of Compliance (WPA Form 8A) to the Conservation Commission.
13. The work shall conform to the plans and special conditions referenced in this order.
14. Any change to the plans identified in Condition #13 above shall require the applicant to inquire of the Conservation Commission in writing whether the change is significant enough to require the filing of a new Notice of Intent.
15. The Agent or members of the Conservation Commission and the Department of Environmental Protection shall have the right to enter and inspect the area subject to this Order at reasonable hours to evaluate compliance with the conditions stated in this Order, and may require the submittal of any data deemed necessary by the Conservation Commission or Department for that evaluation.
16. This Order of Conditions shall apply to any successor in interest or successor in control of the property subject to this Order and to any contractor or other person performing work conditioned by this Order.

C. General Conditions Under Massachusetts Wetlands Protection Act (cont.)

17. Prior to the start of work, and if the project involves work adjacent to a Bordering Vegetated Wetland, the boundary of the wetland in the vicinity of the proposed work area shall be marked by wooden stakes or flagging. Once in place, the wetland boundary markers shall be maintained until a Certificate of Compliance has been issued by the Conservation Commission.
18. All sedimentation barriers shall be maintained in good repair until all disturbed areas have been fully stabilized with vegetation or other means. At no time shall sediments be deposited in a wetland or water body. During construction, the applicant or his/her designee shall inspect the erosion controls on a daily basis and shall remove accumulated sediments as needed. The applicant shall immediately control any erosion problems that occur at the site and shall also immediately notify the Conservation Commission, which reserves the right to require additional erosion and/or damage prevention controls it may deem necessary. Sedimentation barriers shall serve as the limit of work unless another limit of work line has been approved by this Order.
19. The work associated with this Order (the "Project")
- (1) is subject to the Massachusetts Stormwater Standards
- (2) is NOT subject to the Massachusetts Stormwater Standards

If the work is subject to the Stormwater Standards, then the project is subject to the following conditions:

- a) All work, including site preparation, land disturbance, construction and redevelopment, shall be implemented in accordance with the construction period pollution prevention and erosion and sedimentation control plan and, if applicable, the Stormwater Pollution Prevention Plan required by the National Pollution Discharge Elimination System Construction General Permit as required by Stormwater Condition 8. Construction period erosion, sedimentation and pollution control measures and best management practices (BMPs) shall remain in place until the site is fully stabilized.
- b) No stormwater runoff may be discharged to the post-construction stormwater BMPs unless and until a Registered Professional Engineer provides a Certification that:
- i.* all construction period BMPs have been removed or will be removed by a date certain specified in the Certification. For any construction period BMPs intended to be converted to post construction operation for stormwater attenuation, recharge, and/or treatment, the conversion is allowed by the MassDEP Stormwater Handbook BMP specifications and that the BMP has been properly cleaned or prepared for post construction operation, including removal of all construction period sediment trapped in inlet and outlet control structures;
 - ii.* as-built final construction BMP plans are included, signed and stamped by a Registered Professional Engineer, certifying the site is fully stabilized;
 - iii.* any illicit discharges to the stormwater management system have been removed, as per the requirements of Stormwater Standard 10;

C. General Conditions Under Massachusetts Wetlands Protection Act (cont.)

- iv. all post-construction stormwater BMPs are installed in accordance with the plans (including all planting plans) approved by the issuing authority, and have been inspected to ensure that they are not damaged and that they are in proper working condition;
- v. any vegetation associated with post-construction BMPs is suitably established to withstand erosion.
- c) The landowner is responsible for BMP maintenance until the issuing authority is notified that another party has legally assumed responsibility for BMP maintenance. Prior to requesting a Certificate of Compliance, or Partial Certificate of Compliance, the responsible party (defined in General Condition 18(e)) shall execute and submit to the issuing authority an Operation and Maintenance Compliance Statement ("O&M Statement") for the Stormwater BMPs identifying the party responsible for implementing the stormwater BMP Operation and Maintenance Plan ("O&M Plan") and certifying the following:
 - i.) the O&M Plan is complete and will be implemented upon receipt of the Certificate of Compliance, and
 - ii.) the future responsible parties shall be notified in writing of their ongoing legal responsibility to operate and maintain the stormwater management BMPs and implement the Stormwater Pollution Prevention Plan.
- d) Post-construction pollution prevention and source control shall be implemented in accordance with the long-term pollution prevention plan section of the approved Stormwater Report and, if applicable, the Stormwater Pollution Prevention Plan required by the National Pollution Discharge Elimination System Multi-Sector General Permit.
- e) Unless and until another party accepts responsibility, the landowner, or owner of any drainage easement, assumes responsibility for maintaining each BMP. To overcome this presumption, the landowner of the property must submit to the issuing authority a legally binding agreement of record, acceptable to the issuing authority, evidencing that another entity has accepted responsibility for maintaining the BMP, and that the proposed responsible party shall be treated as a permittee for purposes of implementing the requirements of Conditions 18(f) through 18(k) with respect to that BMP. Any failure of the proposed responsible party to implement the requirements of Conditions 18(f) through 18(k) with respect to that BMP shall be a violation of the Order of Conditions or Certificate of Compliance. In the case of stormwater BMPs that are serving more than one lot, the legally binding agreement shall also identify the lots that will be serviced by the stormwater BMPs. A plan and easement deed that grants the responsible party access to perform the required operation and maintenance must be submitted along with the legally binding agreement.
- f) The responsible party shall operate and maintain all stormwater BMPs in accordance with the design plans, the O&M Plan, and the requirements of the Massachusetts Stormwater Handbook.

C. General Conditions Under Massachusetts Wetlands Protection Act (cont.)

- g) The responsible party shall:
 - 1. Maintain an operation and maintenance log for the last three (3) consecutive calendar years of inspections, repairs, maintenance and/or replacement of the stormwater management system or any part thereof, and disposal (for disposal the log shall indicate the type of material and the disposal location);
 - 2. Make the maintenance log available to MassDEP and the Conservation Commission ("Commission") upon request; and
 - 3. Allow members and agents of the MassDEP and the Commission to enter and inspect the site to evaluate and ensure that the responsible party is in compliance with the requirements for each BMP established in the O&M Plan approved by the issuing authority.
- h) All sediment or other contaminants removed from stormwater BMPs shall be disposed of in accordance with all applicable federal, state, and local laws and regulations.
- i) Illicit discharges to the stormwater management system as defined in 310 CMR 10.04 are prohibited.
- j) The stormwater management system approved in the Order of Conditions shall not be changed without the prior written approval of the issuing authority.
- k) Areas designated as qualifying pervious areas for the purpose of the Low Impact Site Design Credit (as defined in the MassDEP Stormwater Handbook, Volume 3, Chapter 1, Low Impact Development Site Design Credits) shall not be altered without the prior written approval of the issuing authority.
- l) Access for maintenance, repair, and/or replacement of BMPs shall not be withheld. Any fencing constructed around stormwater BMPs shall include access gates and shall be at least six inches above grade to allow for wildlife passage.

Special Conditions (if you need more space for additional conditions, please attach a text document):

See attached bylaw conditions.

- 20. For Test Projects subject to 310 CMR 10.05(11), the applicant shall also implement the monitoring plan and the restoration plan submitted with the Notice of Intent. If the conservation commission or Department determines that the Test Project threatens the public health, safety or the environment, the applicant shall implement the removal plan submitted with the Notice of Intent or modify the project as directed by the conservation commission or the Department.

D. Findings Under Municipal Wetlands Bylaw or Ordinance

1. Is a municipal wetlands bylaw or ordinance applicable? Yes No
2. The Westwood hereby finds (check one that applies):
 Conservation Commission
 - a. that the proposed work cannot be conditioned to meet the standards set forth in a municipal ordinance or bylaw, specifically:

1. Municipal Ordinance or Bylaw 2. Citation

Therefore, work on this project may not go forward unless and until a revised Notice of Intent is submitted which provides measures which are adequate to meet these standards, and a final Order of Conditions is issued.

- b. that the following additional conditions are necessary to comply with a municipal ordinance or bylaw:

Westwood Wetland Bylaw Chapter 392
 1. Municipal Ordinance or Bylaw 2. Citation

3. The Commission orders that all work shall be performed in accordance with the following conditions and with the Notice of Intent referenced above. To the extent that the following conditions modify or differ from the plans, specifications, or other proposals submitted with the Notice of Intent, the conditions shall control.

The special conditions relating to municipal ordinance or bylaw are as follows (if you need more space for additional conditions, attach a text document):
see attached bylaw conditions

**20 Wildwood Drive
FINDINGS**

The Commission has reviewed the Notice of Intent plans and has held a Public Hearing on the Project. Based on the information available to the Commission at this time, the Commission has determined that the area on which the proposed work is to be done is significant to the following values set forth in Chapter 392, Westwood Wetlands Protection Bylaw (check as appropriate).

<input checked="" type="checkbox"/> Public water supply	<input checked="" type="checkbox"/> Flood control	<input type="checkbox"/> Fisheries
<input checked="" type="checkbox"/> Private water supply	<input checked="" type="checkbox"/> Storm damage prevention	<input checked="" type="checkbox"/> Wildlife habitat
<input checked="" type="checkbox"/> Groundwater supply and quality	<input checked="" type="checkbox"/> Prevention of pollution	<input checked="" type="checkbox"/> Erosion and sediment control

Furthermore, this Commission finds that the project is approved and that:

1. The site contains the following resource areas subject to protection under the Local Bylaw, Chapter 392 and the Massachusetts Wetland Protection Act: Bordering Vegetated Wetland, 310 CMR 10.55(2).
2. The following conditions which are deemed necessary to protect the interests identified above. This Commission orders that all work shall conform to the approved Notice of Intent plan “**20 WILDWOOD DRIVE SITE PLAN OF LAND IN WESTWOOD, MA**” dated January 17, 2022, to the General Conditions defined under the special conditions attached to this Order. To the extent that the following conditions modify or differ from the plans, specifications, or other proposals submitted with the Notice of Intent, these conditions shall take precedence.

STANDARD CONDITIONS

1. This Order of Conditions applies to the applicant, the owner of the lot described in the Notice of Intent, and the successors and assigns of each. The Conservation Commission shall be notified in writing of any transfer in title to the Land or any change in contractor or developers before the Certificate of Compliance is issued. The notice shall include the name, address, and telephone numbers of the new owner or new contractor or developer, as well as a statement made under the penalties of perjury that the new owner or new contractor or developer has been provided with a copy of this order.
2. This Order shall be included in all construction contracts with contractors and subcontractors dealing with the work proposed and shall supersede all conflicting contract requirements.
3. A copy of this Order of Conditions and applicable plans shall be provided to each company doing work on the site and shall be available on the site at all times during construction.
4. Members of the Westwood Conservation Commission, and/or their designated representatives, shall, at reasonable times, have the right to enter upon and inspect the premises to evaluate compliance with this Order of Conditions.
5. The Applicant or owner shall be liable for any non-compliance with the Conditions of this Order or with any Condition that may survive the issuance of a Certificate of Compliance. The Conservation Commission may assess appropriate penalties for non-compliance with the Order and

surviving conditions. This may include a \$300.00 per violation/per day non-criminal penalty issued under the Westwood Wetlands Protection Bylaw, Article 18.

Pre-Construction Requirements

6. All work shall conform to the plans referenced above, specifications, and special conditions defined in this Order of Conditions.
7. No work shall commence on site until the following conditions are met.
 - a) All appeal periods have elapsed.
 - b) The applicant records the approved Order of Conditions at the Registry of Deeds and provides a copy of the recorded Order of Conditions, stamped by the Norfolk County Registry of Deeds to the Conservation Commission.
 - c) The Town Bylaw sign is placed in a visible location on the site in accordance with State General Condition 10 and remain visible until the Commission issues a Certificate of Compliance. This sign shall be constructed of wood.
 - d) The Applicant informs the Conservation Commission, in writing, of the names, addresses, and business telephone numbers of each person responsible for supervising the project and for onsite compliance with this Order and his/her alternate.
 - e) The Applicant installs erosion control measures at the locations shown on the plan referenced in the Order of Conditions or as directed by the Agent in the field. Only vegetation directly in the path of the erosion control works shall be removed at this time.
 - f) A limit of work line shall be staked in the field by means of a compost sock (or equivalent – straw wattles are not to be used) and four foot high fluorescent orange snow fencing supported eight foot on center with standard weight metal agricultural fence posts. Workers shall be informed that no construction activity beyond that conditioned herein is to occur beyond this line at any time.
 - g) The Applicant shall notify the Conservation Commission **in writing** of the Applicant's desire to have the erosion controls and limit of work fencing inspected by the Commission or their Agent.
 - h) The applicant shall receive **written approval** of the erosion control installation from the Commission or their Agent.
 - i) The applicant shall arrange a pre-construction meeting between the applicant, the General Contractor's site superintendent, and the Conservation Commission. The purpose of this meeting is to review all aspects of the Order, in detail. The Project Supervisor in charge of day-to-day operations on site shall read and sign each page of a copy of the recorded Order. The purpose of this exercise is to insure that each and every Condition has been read and is understood. Questions relative to the meaning or intent of any Condition shall be clarified during the pre-construction meeting.

Only after the Applicant has satisfied the procedural requirements above shall the Applicant be allowed to begin construction.

Erosion Control and Pollution Prevention Measures

8. All erosion control measures shall be maintained in good condition at all times. Deteriorated erosion control measures shall be replaced as required, to maintain effectiveness for sediment interception. The Conservation Commission or their agent reserve the right to require additional erosion and/or damage prevention control at any time they are deemed appropriate. **At no time shall any sediment be allowed to be deposited in any resource area.**
9. During all phases of construction, disturbed or exposed soil surfaces shall be brought to final finished grade and immediately stabilized. Bare ground that cannot be permanently stabilized within 30 days shall be loamed and seeded or stabilized with mulch.
10. No erosion control measures shall be removed until such removal is allowed by the Commission, or their agent, in writing, or if a Certificate of Compliance issues for the work conditioned herein, whichever comes first.
11. There shall be no stockpiling of soil, erodable materials and other debris within 50 feet of any Resource Area without the permission of the Conservation Commission.
12. No materials excavated from any area on the site shall be dumped into any Resource Area or Buffer Zone thereto.
13. During construction of the project, there shall be no discharge of fuel, oil, or other pollutants onto any part of the site. The Applicant shall take all reasonable precautions to prevent the release of pollutants by ignorance, accident, or vandalism. In the event there is a spill on the site, the Applicant shall immediately notify the Conservation Commission and the Board of Health.
14. Equipment fuel storage and refueling operations shall be situated in an upland area at a horizontal distance greater than 100 feet from the boundaries of the wetlands.

Changes in Plans

15. Changes to the approved plans require formal action by the Conservation Commission allowing the change. The Applicant must submit a written request for the Commission to amend the Order of Conditions and a revised plan outlining the changes. If the Commission determines by a majority vote that the changes are significant, the Commission may require a new public hearing, at the expense of the Applicant, to amend the Order of Conditions, or if necessary, issue a new Order.
16. No work involving the change(s) shall be done until a new or amended Order of Conditions has been issued and all appeal periods have expired. It is the responsibility of the Applicant to make sure that all changes accepted by, or required by, the Conservation Commission are reflected in the plans held by other Town departments.
17. Errors found in the plans or information submitted to other Boards or Departments in the Town of Westwood by the Applicant that differs from the plan of record for this Order shall be considered changes and the above procedures shall be followed.

18. Plans submitted to any Town of Westwood Board or Town Department for work on this site that differ from the plan of record for this Order shall be considered changes and the procedures outlined for changes shall be followed.

Requirements for a Certificate of Compliance

19. Upon completion of work covered by this Order, the Applicant shall request in writing that a Certificate of Compliance be issued. The written request shall be accompanied by a statement from a Professional Engineer or Professional Land Surveyor registered in the State of Massachusetts that all work allowed or required by this Order has been satisfactorily completed. Such request shall also be accompanied by an as-built plan prepared, stamped and signed, by a registered P.E. or Land Surveyor
20. If this lot is sold during the life of this Order of Conditions, a Certificate of Compliance will not be issued until the prospective lot buyer signs and delivers a statement to the Conservation Commission indicating that they are aware that:
- a. They have received a copy of the approved plans.
 - b. The Commission has determined that the lot contains wetlands.
 - c. Modifications or changes to the approved plan may require a new Notice of Intent.
 - d. An Article 18 Order of Conditions exists upon the property and that certain Conditions, forever binding upon the lot, will survive the issuance of the Certificate of Compliance.
 - e. That the buyer/owner of the property is responsible for compliance with all conditions that survive the issuance of a Certificate of Compliance.
 - f. The buyer/owner is liable for non-compliance with any continuing conditions and may be assessed appropriate penalties by the Conservation Commission, as applicable.
 - g. There is a no disturbance setback surrounding the wetlands on site for future planning.
 - h. Dumping grass clippings, brush, leaves or other yard waste into the resource areas or the no disturb buffer will alter the resource area and shall be considered a violation of the Wetlands Protection Act and the local bylaw.
 - i. Required plantings must have a 75% survival rate after 2 years and the lot must be free of invasive plants.

Continuing Conditions

21. As a continuing condition of this Order of Conditions, if within two (2) years from the issuance of a Certificate of Compliance, erosion is evident on any slopes mitigating measures satisfactory to the Westwood Conservation Commission shall be taken.
22. As a continuing condition of this Order of Conditions, even after a Certificate of Compliance is issued, no waste products of landscaping may be placed within the 35 foot no disturbance buffer zone, in the wetland resource area.

Site Specific Conditions for 20 Wildwood Drive:

1. Compost sock or similar (straw wattles are NOT to be used unless approved by the Commission) and orange construction fence are to be installed and inspected prior to start of work.

2. All paved surfaces associated with this project must be kept clean at all times. All silt and debris should be swept up at the end of each work day throughout the duration of the project.
3. Organic fertilizer must be used on the lawn in perpetuity.
4. Three (3) native trees are to be planted on the site. The type of trees must be approved by the Commission's agent prior to planting. Trees are to be 2" caliper and have a 100% survival rate after two years. The applicant must notify the Commission's agent when trees are planted.
5. The first phase of invasive plant removal shall be performed prior to start of construction, then at least twice a year for three years. After the first phase of removal has been completed the area shall be either seeded with an approved seed mix, or revegetated with approved plants and covered with 3 inches of shredded bark mulch, to minimize the regrowth of the invasive plants. A monitoring report must be submitted to the Commission twice a year (before June 1 and November 1) describing the health of the new plantings and the status of the invasive removal plan.

F. Appeals

The applicant, the owner, any person aggrieved by this Order, any owner of land abutting the land subject to this Order, or any ten residents of the city or town in which such land is located, are hereby notified of their right to request the appropriate MassDEP Regional Office to issue a Superseding Order of Conditions. The request must be made by certified mail or hand delivery to the Department, with the appropriate filing fee and a completed Request for Departmental Action Fee Transmittal Form, as provided in 310 CMR 10.03(7) within ten business days from the date of issuance of this Order. A copy of the request shall at the same time be sent by certified mail or hand delivery to the Conservation Commission and to the applicant, if he/she is not the appellant.

Any appellants seeking to appeal the Department's Superseding Order associated with this appeal will be required to demonstrate prior participation in the review of this project. Previous participation in the permit proceeding means the submission of written information to the Conservation Commission prior to the close of the public hearing, requesting a Superseding Order, or providing written information to the Department prior to issuance of a Superseding Order.

The request shall state clearly and concisely the objections to the Order which is being appealed and how the Order does not contribute to the protection of the interests identified in the Massachusetts Wetlands Protection Act (M.G.L. c. 131, § 40), and is inconsistent with the wetlands regulations (310 CMR 10.00). To the extent that the Order is based on a municipal ordinance or bylaw, and not on the Massachusetts Wetlands Protection Act or regulations, the Department has no appellate jurisdiction.
