APPLICABLE SECTIONS OF THE WESTWOOD ZONING BYLAW

4.5.3.2 Special Permit Alterations of Nonconforming Structures. In the event that the Building Commissioner determines that a proposed alteration to a nonconforming structure does not meet the requirements of Section 4.5.3.1, the Board of Appeals may grant a special permit to make alterations to a nonconforming structure in accordance with this Section only if it determines that such alteration does not substantially increase the nonconforming nature of said structure and would not be substantially more detrimental than the existing nonconforming structure to the neighborhood. The following types of alterations to nonconforming structures may be considered for a special permit by the Board of Appeals:

- 4.5.3.2.2** Vertical extension of an existing exterior wall at or along the same or greater distance from a lot line, provided that the structure has a building height of no more than twenty-five (25) feet, if constructed on a lot that does not comply with current lot area and/or lot frontage requirements, or a building height no greater than permitted by this Bylaw if constructed on a lot that complies with current lot area and/or lot frontage requirements.

FINDINGS

In consideration of all of the testimony and exhibits and documents submitted before the Board, the Board makes the following findings of fact:

1. The Subject Property is located at 16 Mill Brook Road within the Single Residence C (SRC) zoning district, the lot area of the subject property is .39 acres. The existing single family structure is nonconforming due to violation of the front setback. The existing front setback is 20' where 40' is required.
2. The Petitioner is proposing to construct a second story dormer addition that would raise the height in nonconforming front setback. Relief in the form of a Special Permit pursuant to Section §4.5.3.2.2 was requested. The Board of Appeals is the Special Permit Granting Authority.
3. Any adverse effects of the Petitioner's proposed construction will not outweigh its beneficial impact to the Town, or the neighborhood, in view of the particular characteristics of the site and the proposal in relation to that site.
4. The Petitioner's proposal will not have a material adverse effect on the value of the land and buildings in the neighborhood, or on the amenities thereof, or be detrimental to the normal use of the adjacent property, and it will not be injurious or dangerous to the public health or hazardous because of traffic congestion, or other reason, and any adverse effects of the proposed use do not outweigh its beneficial aspects, all in view of the particular characteristics of the site and of the proposal in relation to that site.
5. The Petitioner has met all the requirements for a Special Permit pursuant to the Westwood Zoning Bylaw.

DECISION and CONDITIONS

The Board of Appeals voted unanimously to grant the Petitioner's request for a Special Permit pursuant to Section 4.5.3.2.2 of the Westwood Zoning Bylaw and upon the following conditions:
