FYI this is a change to an existing permit that was submitted. The change to this permit is we are requesting to add a bedroom in place of the gym that was proposed in the approved permit. Also I wanted to note that I visited the building dept today and spoke with the building dept about this change. I was told to speak with the person in the sewer/highway dept about adding the additional bedroom, and I was told from Cindy that because it's currently a three bedroom house and we're adding an additional bedroom making it a four bedroom that we don't need to pay any additional fees to the sewer/highway dept... And because we're not exceeding the four bedroom count that we are all good on their end. I've attached the documentation for the egress window and scapewall that will be installed. Thank you for your time! Steve
