**HEARING:**

The Board of Appeals for the Town of Westwood held a Public Hearing according to the General Laws of the Commonwealth of Massachusetts on Wednesday September 20, 2023 at 7:00 P.M. via remote participation to consider the Petitioner’s request for a special permit pursuant to the Westwood Zoning Bylaw Section § 4.5.3.2.2 [Special Permit Alterations of Nonconforming Structures – Vertical Extension]. The Petitioner proposes to construct a second story addition to an existing single-family residence. The addition increases the height of the building in the front and side setbacks. The existing structure is nonconforming as it violates both side setbacks. The structure is located 13.5’ from the left-side lot line and 12’ to the right-side lot line, where 15’ is required. The lot is also nonconforming due to lack of frontage and area. The property is located in the Single Residence D (SRD) zoning district.

**APPLICABLE SECTIONS OF THE WESTWOOD ZONING BYLAW**

**4.5.3.2 Special Permit Alterations of Nonconforming Structures.** In the event that the Building Commissioner determines that a proposed alteration to a nonconforming structure does not meet the requirements of Section 4.5.3.1, the Board of Appeals may grant a special permit to make alterations to a nonconforming structure in accordance with this Section only if it determines that such alteration does not substantially increase the nonconforming nature of said structure and would not be substantially more detrimental than the existing nonconforming structure to the neighborhood. The following types of alterations to nonconforming structures may be considered for a special permit by the Board of Appeals:

**4.5.3.2.2** Vertical extension of an existing exterior wall at or along the same or greater distance from a lot line, provided that the structure has a building height of no more than twenty-five (25) feet, if constructed on a lot that does not comply with current lot area and/or lot frontage requirements, or a building height no greater than permitted by this Bylaw if constructed on a lot that complies with current lot area and/or lot frontage requirements.

**FINDINGS**

In consideration of all of the testimony and exhibits and documents submitted before the Board, the Board makes the following findings of fact:

1. The Subject Property is located at 14 Bayley Street. The structure is nonconforming as it violates both the side setbacks; the left side is located at 13.5' and the right is 12' from the lot line where 15' is required. The lot is nonconforming due a lack of frontage and area.
2. The Petitioner is proposing to construct a second story addition to an existing single-family home that would raise the height in the side setbacks. Relief in the form of a Special Permit pursuant to Section §4.5.3.2.2 was requested. The Board of Appeals is the Special Permit Granting Authority.
3. Any adverse effects of the Petitioner's proposed construction will not outweigh its beneficial impact to the Town, or the neighborhood, in view of the particular characteristics of the site and the proposal in relation to that site.
4. The Petitioner's proposal will not have a material adverse effect on the value of the land and buildings in the neighborhood, or on the amenities thereof, or be detrimental to the normal use of the adjacent property, and it will not be injurious or dangerous to the public health or hazardous because of traffic congestion, or other reason, and any adverse effects of the proposed use do not outweigh its beneficial aspects, all in view of the particular characteristics of the site and of the proposal in relation to that site.
5. The Petitioner has met all the requirements for a Special Permit pursuant to the Westwood Zoning Bylaw.
