To see if the Town will vote to approve certain amendments to Zoning Bylaw Section 2.0 [Definitions] to revise, expand, clarify and/or illustrate the definition of various terms used within the bylaw, as follows, or take any other action in relation thereto:

[New language shown in underlined red font, language to be removed shown with strikethrough]

- 1) Revise the definition for “Building Height” to add two illustrations, so that the revised definition reads as follows:

Building Height The vertical distance from grade plane to the average height of the highest roof surface. The limitations of height shall not apply to chimneys, ventilators, skylights, tanks, bulkheads, penthouses, amateur radio antennas and other necessary

features usually carried above the roof line, provided such features do not cover more than twenty-five percent (25%) of the area of the roof of the building or other structure and are used in no way for human occupancy. (See illustrations.)

- 2) Revise the definition for “Lot Width” to read as follows:

Lot Width The minimum distance between the side lot lines at all points between the front lot line ~~through the extent of the required front setback distance and the nearest point of a principal building.~~

- 3) Revise the definition for “Yard, Rear” to read as follows:

Yard, Rear A yard the full width of the lot and situated between the rear line of the lot and the nearest part of the principal building projected to the side lines of the lot.

- 4) Add new definition for “Detached Accessory Structure” to read as follows:

Detached Accessory Structure A structure which is not physically attached to any primary structure on a property, is located remotely from that structure, and is self-supporting/freestanding. The use of an accessory structure shall not be dependent upon the primary structure and physical access must be independent. For example, a deck which is not connected to a house, but can be accessed directly from the interior would not be considered a detached structure.

- 5) Add a new definition for “Retaining Wall Height” to read as follows, including illustration:

Retaining Wall Height A retaining wall’s height is determined from the bottom of the footing (or lowest level of constructed support) to the top of the wall. In the case of two or more terrace-style walls, if the distance between walls is less than twice the height of the lower wall, they are considered the same wall/structure. If the separation distance is more than twice the height of the lower wall, they are considered as separate walls/structures. (See illustration.)

If 'd' is less than twice the measurement of 'h₁', then Wall 1 and Wall 2 will be considered as a single wall/structure and the height would be 'h₃' as shown. If 'd' is equal to or greater than twice 'h₁', Wall 1 and Wall 2 would be considered separate walls/structures

- 6) Add a new definition for “Combined Wall and Fence Height” to read as follows, including illustration:

Combined Wall and Fence Height When a fence is installed adjacent to and above a wall (retaining or otherwise), and not separated by a distance equal to the fence’s height, the wall and fence shall be measured together. If they are separated by more than the height of the fence, the fence is determined to be independent of the wall for the purposes of determining height. (See illustration.)

If 'd' is less than 'f', the wall and fence will be measured as one structure for the purposes of height. If 'd' is equal to or greater than 'f', the wall and fence heights will be separate.

- 7) Revise the definition for “Affordable Housing” to define “Affordable Housing/Affordable Dwelling Units” to read as follows:

Affordable Housing/Affordable Dwelling Units ~~Dwelling units available at a cost of no more than thirty (30) percent of gross household income to households at or below eighty (80) percent of the Boston PMSA median income as most recently reported by the U.S. Housing and Urban Development (HUD), including units listed under M.G.L Chapter 40B and the State's Local Initiative Program. Such dwelling units shall be affordable to households at or below eighty (80) percent of the Boston-Cambridge-Quincy, MA-NH Area Median Income as most recently reported by the U.S. Department of Housing and Urban Development (HUD). All said dwelling units shall be designed to count toward Westwood's requirements under Massachusetts General Law Chapter 40B, Sections 20-23, as amended and all affordable dwelling units shall remain affordable in perpetuity. All affordable units shall be indistinguishable from market rate units within the same development and shall be scattered throughout a project. <u>Total Number of Dwelling Units</u>	<u>Minimum Number of Affordable Dwelling Units</u>
<u>1 to 7 units</u>	<u>0</u>
<u>8 to 9 units</u>	<u>1</u>

<u>16 to 22 units</u>	<u>3</u>
<u>23 to 26 units</u>	<u>4</u>

5) Revise Section 9.9.12.10 [Fiscal Analysis] to read as follows:

Where any project authorized under this bylaw will result in the development of at least eight (8) ~~new~~ residential dwelling units, ~~the minimum number of dwelling units specified in the table below a minimum of 15% of those residential dwelling units~~ shall be restricted to meet the definition of Affordable Housing/Affordable Dwelling Units in Section 2.0 of this Bylaw ~~and in the Rules and Regulations.~~ Notwithstanding the above, the minimum number of Affordable Dwelling Units shall be reduced from a minimum of 15% to a minimum of 10% unless the higher percentage is supported by an economic feasibility analysis accepted by the Executive Office of Housing & Livable Communities (EOHLC), or successor, in accordance with EOHLC’s Compliance Guidelines for Multi-family Zoning Districts Under Section 3A of the Zoning Act, revised through August 17, 2023. All such affordable dwelling units shall be contained within the MUMFROD project unless the Planning Board determines a proposed alternative to be at least equivalent in serving the Town’s housing needs after consultation with the Westwood Housing Partnership and the Westwood Housing Authority. ~~The affordable dwelling units authorized under the provisions of this Bylaw shall be Local Initiative Program (LIP) dwelling units in compliance with the requirements for the same as specified by the Department of Community Affairs, Massachusetts Department of Housing and Community Development (DHCD), or successor, or affordable dwelling units developed under additional programs adopted by the Commonwealth of Massachusetts or its agencies. All said dwelling units shall count toward Westwood’s requirements under Massachusetts General Law Chapter 40B, Sections 20-23, as amended and all affordable dwelling units shall remain affordable in perpetuity. All affordable units shall be indistinguishable from market rate units within the same development and shall be scattered throughout a project.~~

 9.9.15 **Special Permit Decision.** A MUMFROD Special Permit shall be granted upon the determination of the Planning Board that the application meets the objectives cited in the purpose of this Section, that the proposal is in conformance with requirements of this Section, and upon the following positive findings:
- 9.9.15.1 In cases where a MUMFROD Special Permit allows for residential density in excess of 15 units per acre in MUMFROD1 or MUMFROD4, or in excess of 20 units per acre in MUMFROD2, or in excess of 35 units per acre in MUMFROD3, the Planning Board must find that the higher residential density is necessary for the project’s feasibility, and that said density will have no adverse impact on the public health, public welfare, or public safety of any nearby neighborhood, adjacent properties, or the Town as a whole. Additionally, the Board must find that the fiscal impact from the additional residential units will not have a significant negative fiscal impact on the Town, or that that the Applicant has appropriately mitigated any negative fiscal impact so as to render the project sufficiently beneficial to the Town.
- 9.9.15.2 In cases where a MUMFROD Special Permit allows for deviations from dimensional requirements of this Section, the Planning Board must find that the alternate dimensional requirements result in an improved project design, and that the resultant project will have no adverse impact on the public health, public welfare, or public safety of any nearby neighborhood, adjacent properties, or the Town as a whole.
- 8) Amend the Official Zoning Map to remove the current Mixed-Use & Multi-Family Residential Overlay District (MUMFROD) district from the Official Zoning Map, and to add Mixed-Use & Multi-Family Residential Overlay District 1 (MUMFROD1), Mixed-Use & Multi-Family Residential Overlay District 2 (MUMFROD2), Mixed-Use & Multi-Family Residential Overlay District 3 (MUMFROD3), and Mixed-Use & Multi-Family Residential Overlay District 4 (MUMFROD4) to the Official Zoning Map, with specific parcels included in each overlay district as follows:

Waste and/or recycling containers shall not be filled more than one (1) hour before the start of business or one (1) hour after the close of business of an associated commercial establishment, nor between the hours of 12:00 a.m. and 6:00 a.m. at a multi-family residential property.
