Westwood Solar and Energy Fair

The Westwood Environmental Action Committee and the Westwood Dedham Walpole League of Women Voters will host a Solar and Energy Fair on Sunday November 5.

Exhibitors and speakers will show homeowners how improved technology at declining cost can help most homeowners reduce their energy costs and environmental footprint. This is the time to install solar panels, before some of the financial incentives run out. Local solar PV installers, alternative energy providers and some of your Westwood neighbors who have installed energy producing / saving equipment will be on hand to explain the many options now available, from solar panels and heat pumps installation to the Drive Green program with Mass Energy

Presentations are scheduled as follows:

- 1:15 Solar PV: How it works; panel choices
- 1:55 Solar PV: Financing options, installation process
- 2:35 Heat pumps: How they heat and cool efficiently
- 3:15 Drive Green with Mass Energy
